THE SPACECRAFTER

The Publication of Spacecraft Research Association

A Non-Profit Organization
Phoenix, Arizona

Vol. III, No. 1 January-May, 1960

Spacecraft Research Association is a non-profit organization, formed for the purpose of the investigation of spacecraft, extra-terrestrial phenomena, and other subjects relating to mysticism and the occult sciences; to disseminate pertinent information; to present lecturers; and to encourage public support of projects in connection with these subjects.

TAPE RECORDING AT MAY MEETING

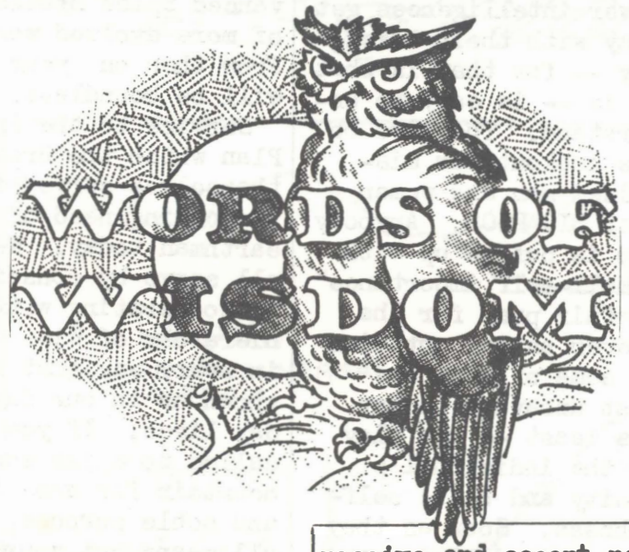
Regular meeting of the Forum Division of S.R.A. will be held at the Phoenix Metaphysical Center, 3325 N. 24th Street, Phoenix on Friday, May 20, 1960, at 8:00 P.M.

There will be a short business meeting to make plans for the outdoor meetings during the summer months. Following this, there will be a tape recording of Carl R. Anderson, author of TWO NIGHTS TO REMEMBER. This recording is to be presented by Jesse and Lena Robinson.

S.R.A. Associate Members are invited to attend this meeting.

DANIEL W. FRY LECTURE

Daniel W. Fry is scheduled to be in Phoenix on 14 May 1960 at the Phoenix Metaphysical Center, 3325 N. 24th Street, at 8:00 P. M. His subjects are: Spacecraft and Space Travel, Relativity of Reality, and Proof of the Pudding. DON'T MISS THIS LECTURE!!



In a manner of speaking we are pilgrims in our movement. In any new idea or teaching, there always those who must go ahead; who must meet the resistance generally encountered and speak their ideas in the face of unfriendly conditions (sometimes amounting to outright hostility) to prepare the general public to receive and accept new ideas for consideration.

The object of this club is to acquaint ourselves with as many facts as possible concerning UFO's, Metaphysics, Mysticism, and other related subjects. These facts should then be presented with as little ambiguity as possible to the general public.

The field is so broad as to make it virtually impossible for just a few people to be aware of all the various aspects. Therefore, it is necessary to allow many people to be heard and the evidence considered to achieve any real conception of the whole story. Personal prejudice should not allow us to omit any facet which could possibly help to present a complete picture.

Most of the contactees whom I have heard seem to agree on one point---Brotherly Love. It seems that all contacts, from outer space, stress this point. So it would appear that all "Fussin" Fightin', and Feudin'", within groups or the

to page 10

THE MAGIC OF HIGHER CONTACT
by Micheal X

Many of you sincere New Age Individuals have been asking, "How can I contact the Space People?" You want to know how to become a "Contactee" so that you too will communicate -- as thousands of other men and women on our planet are beginning to -- with higher intelligences from other worlds. I assure you IT CAN BE DONE.

If your motive is right, you can make higher contact. But, and this is the only "catch" to it...If your motive is wrong, that is, if it's primarily selfish, you will only make the lower contact. That is where so many otherwise sensible people get sidetracked. They forget to put their little "small-self importance" to one side, so that the Higher self in them can act in its pure, noble and unselfish way.

Your High Self is in no way interested in small or petty aims. It is not interested in personal "self-importance" either. Whether you are really sincere in your wish to serve the universal forces of Life, Love and Light... so that all men may UNFOLD and PROGRESS FASTER in Soul, Mind and Body...THAT is what matters most to It.

Many persons are in "contact" with lower intelligences and sad to say, are not even aware of the situation. You may know of someone who believes he (or she) is in communication with some advanced being on another planet, but the truth of the matter might be just the opposite. Some being on the astral plane of our own planet earth, may be posing as a Martian, a Venusian, a Jupiterian, a Mercurian, or even as a Plutonian. Low astral intelligences can be quite deceiving.

The reason why these lower intelligences get away with their trickery -- for that is what it is -- is easy to understand. They are on the lookout for misguided men and women with BIG EGOS. Anybody who is puffed up with "small-self importance" is fair prey for the clever astral entities -- some of whom are most unsavory to say the least -- who play on the individual's vanity and basic selfishness. Soon as they have wedged their way into one's consciousness through the ingress of a bloated ego, the lower entities USE that individual to further their own unsavory purposes.

How can you protect yourself from those dark forces? By your motive. Let it be in line always with the UPBUILDING FORCES that exist within all creation. That is easy enough to do, once you become imbued with the spirit of HIGH ADVENTURE! Yes, that's the key to it. HIGH rather than low. Seek the HIGH self -- the Oversoul as Emerson described it. Make Soul-Contact first, then, it will be utterly impossible for you to go wrong or contact the wrong type of space intelligences. Your vibration will be too high for them.

Happily, your higher vibration will be just right for making contact with the Wise Ones, the Masters and advanced Space Brothers of more evolved worlds. From then on your joy will be boundless.

Service to the Great Plan which the Brothers themselves serve is the crying need of earthman today. We can all serve by consciously cooperating with the Hierarchy of Wise Ones in every way that is shown us in our day to day lives. If you are called to climb some mountain for some high and noble purpose, by all means put your best foot forward. Forget how you look, or your minor frustrations. You will rise above them, believe me. Whatever the challenge, whatever the job the Brothers give us to do, let's show them we are with them and they can bank on us to do our share in getting the job done!

End

GIANT ROCK CONVENTION MAY 28, 29

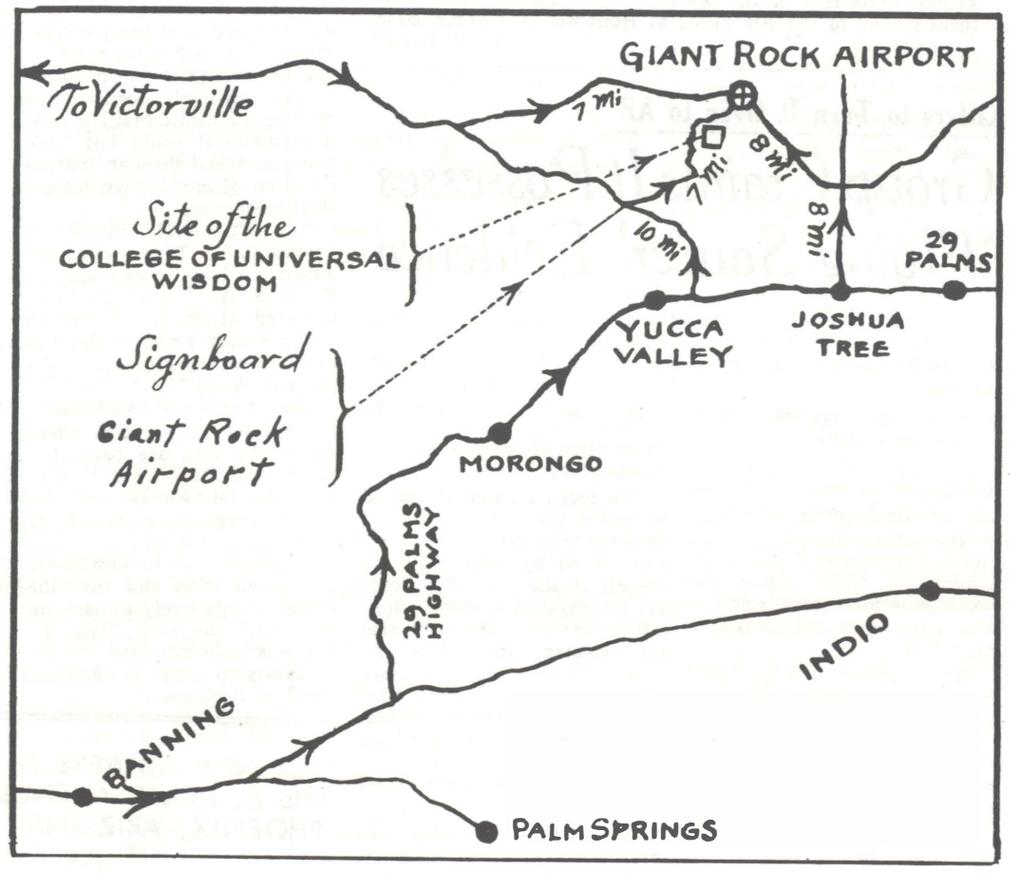
The 7th Annual Spacecraft Convention will be held at Giant Rock Airport on Saturday and Sunday, May 28 and 29.

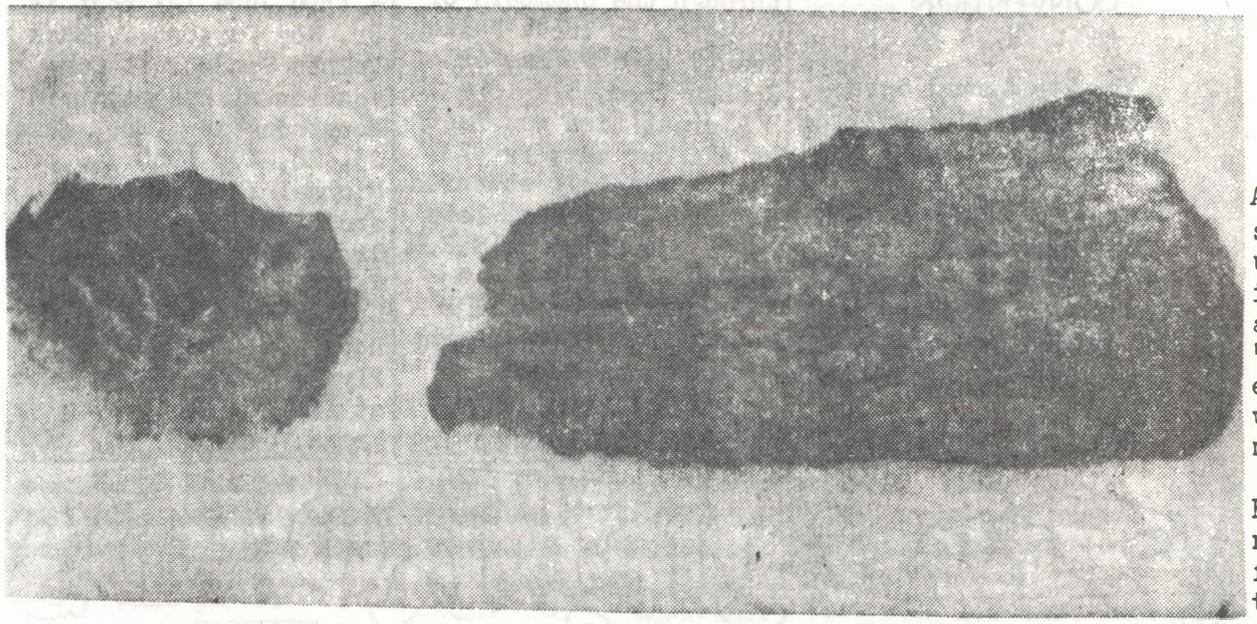
The program will start at 10:00 A.M. each day. Campers are advised to bring adequate clothing, food, water, and equipment.

Get your reservations in early if you want motels. They are available through the Chambers of Commerce in Yucca Valley, Twenty Nine Palms, or Joshua Tree.

A great time was had by all our members who have previously attended these conventions. Lets get a big group of S.R.A. members and friends to represent Phoenix this year. Will be seing you at the Convention.

OTHER CONVENTION NEWS: Universal Fellowship Order (UFO) Convention in Des Moines, Iowa, June 8 thru June 12; host is Dr. Roy Parsons....Buck Nelson Spacecraft Convention at his ranch in Mountain View, Mo., June 25, 26, 27, 1960..... Michael X (Barton) is coordinating the Harmony Grove Camp Saucer Convention, July 2,3,4,1960. Gab Green's AFSCA is to have the Interplanetary Flying Saucer Convention at the Los Angeles Sports Arena, July 23, 24, 1960.





PARTS OF SPACE SHIP, GROUP SAYS: The Aerial Phenomena Research Organization said the items in this photograph are parts of a space ship that crashed on earth. APRO said the metal in the two pieces, which are about four inches long and two inches wide, is a "form of metal unknown anywhere in the world." The bits of metal were turned over to the Air Force at Holloman Air Force Base, Alamogordo. (UPI Photo)

Offers to Turn It Over to AF

Group Claims It Possesses 'Flying Saucer' Evidence

ALAMOGORDO (AP)—An official of an organization dedicated to the study of unidentified flying objects said Saturday the group has physical evidence of the existence of such phenomena.

And a challenge was issued to the U. S. Air Force to try to refute the evidence.

The challenge came in a letter from Mrs. Coral E. Lorenzen of Alamogordo, who is an international director of the Aerial Phenomena Research Organization. This group has worldwide membership and its aim is to collect and study data on UFOs.

Mrs. Lorenzen said the APRO has in its possession two pieces of material found after what she termed "an extra-terrestrial vehicle . . . met with disaster in the earth's atmosphere."

Mrs. Lorenzen's letter was sent to Maj. Lawrence J. Tacker of the office of public information of the Air Force in Washington.

"We feel . . . that it should be routed through you since it concerns directly a recent report issued by your office to the effect that the Air Force has no physical evidence indicating that any UFOs are real and extraterrestrial." Mrs. Lorenzen wrote. "A release which you issued early this year states 'no physical or material evidence, not even a minute fragment of a so-called flying saucer, has ever been found."

The APRO, she adds, can provide this physical evidence.

"It is, in fact, a portion of an extraterrestrial vehicle which met with disaster in the earth's atmosphere. The catastrophe was witnessed by numerous human beings," she wrote.

"The gratifying aspect of this case, however, is that we do not have to depend on the testimony of witnesses to establish the reality of the incident, for the most advanced laboratory tests indicate that the residual material could not have been produced through the application of any known terrestrial techniques . . .

". . . We humbly submit this proposition: The evidence which we have is available to the U. S. Air Force—not to be bickered about, but rather to be examined by scientific authorities acceptable to all parties concerned."

Mrs. Lorenzen exhibited a photograph of the two small pieces she says are part of a space ship. She said that at present she would not say where they were found or where they now are.

"I would like to emphasize this is no trick and that the APRO stands ready to back up its offer," she said. "The Air Force is here provided the opportunity to indict or vindicate itself, as it chooses."

TESTS PROVE SAUCERS REAL

ALAMOGORDO, N.M. (UPI) A research group here said yesterday it has uncovered evidence that indicates unidentified aerial objects from "somewhere other than earth" are operating within the earth's atmosphere.

The Aerial Phenomena Research Organization notified air force officials in Washington that the group has in its possession actual physical evidence that flying saucers are extra-terrestrial in origin.

"The most advanced laboratory tests, including spectro-analysis, indicate the material could not have been produced by any known method on earth," Coral Lorenzen, director of APRO, said.

In his letter to Maj. Lawrence J Thacker, PIO spokesman for the air force, Lorenzen said the physical evidence is a portion of "an extra-terrestrial vehicle that crashed in the earth's atmosphere."

APRO offered to submit the material to the air force for scientific study. APRO is made up of scientists, astronomers and space and missile experts, and is headquartered in Alamogordo.

SAUCER PICTURE PUBLISHED

VIENNA (UPI) -- The Newspaper Wiener Montag today published a full front-page picture of a white-glowing object against a dark background and identified it as a real flying saucer--"The most sensational photograph of our century."

The newspaper said Edgar Schedelbauer, 36, its photographer in the Styria Province, took the picture last Wednesday.

It quoted Schedelbauer as saying the object hovered for about 10 seconds over a wooded area about 45 feet in the air. He said he could feel heat from it.

"It looked like a white-glowing spider," Schedelbauer said. "I immediately took my camera and made a few shots. Fortunately enough of them were good.

"When the flying saucer disappeared after a few seconds I heard a noise similar to that of a jet aircraft."

The newspaper said it published the picture and story only after careful consideration and after experts had checked the negative to determine it was not a trick shot.

It admitted, however, that Austrian and German scientists who were asked for their opinion expressed skepticism.

REALLY ? ?
as told to
Vic Curtis

SAUCERS, FLYING??? But for real. I know 'cause I saw one!!!

Vic Phelps, recently from Wisconsin, made this sighting (his first) way back in '46. But like so many, many others in that day and particular location, didn't report the sighting of this outer-space visitor, for in so doing one almost automatically had his mental stability questioned.

But now, Vic tells it this-a-way: "My wife and I were headin' south, going from Minneapolis, Minnesota, to Mason City, Iowa. Well past mid-day and nearing the border, I first saw this silver colored flying saucer in the sky. Its place then was a good two-thirds of the way down the horizon, lookin' almost due south.

"Shakin' my head and blinkin' my eyes, I saw the big silver disk still remained in sight so I asked my wife if she saw what I was seein'. When she answered YES, I swung the car off the road, stopped, and we scrambled out for a better, unobscured look at this phenomenon.

"We stood by the car just watchin' for a good half hour. 'Most all the while that saucer was performin' aerial feats an' stunts that are IMPOSSIBLE, even today, for man-

S R A MAKES HISTORY IN 1960

The First Regular Meeting of 1960 took place January 15 with the new President, Agnes Sanborn, presiding. There was an open discussion of plans for the forthcoming year.

February 13 and 14-We had Dana Howard who talked on a subject relating to a heretofore unknown land in Antartica and Dr. Carl Jung's Flying Saucer Story.

February 19-S.R.A.'s Second Regular Meeting, at which time Dr. Don Kelsey gave wonderful talk on the Land of Mu.

March 18-Third Regular Meeting when Dr. Kelsey continued his topic on Land of Mu.

April 1st-To her surprise President Agnes Sanborn was interviewed on Radio KRUX Joe Pyne Program from 8:00 to 9:30 P.M., answering questions of the radio audience.

April 2 and 3-Michael X gave lectures on Rainbow City and the Inner Earth People, and on How to Contact the Space People, which were very inspiring.

April 4-Michael X was interviewed on Radio KRUX by Joe Pyne and answered questions from the radio audience.

April 14-Another very inspiring and enlightening lecture was delivered by Dr. John W. Hopkins, President of Williams College, Berkeley, California.

April 15-Bill Lester KOY recorded an interview with Dr. John W. Hopkins, and presented it the following Tuesday evening on KOY's Top Of The Desk Program.

April 22-At noon President Agnes Sanborn and former Vice-President Jack Myers were interviewed by Joe Patrick on TV-KPHO Channel 5, to be shown the following Thursday, Apr. 28 on Arizona Q.T., 9:00PM.

April 22-The Fourth Regular Meeting took place with an open discussion on future radio and TV programs and the spacecraft conventions.

April 28-TV Program was presented as scheduled.

OUR APOLOGIES TO OUR READERS OF THE SPACE-CRAFTER

It is hoped that in the future the necessary funds and support will be available to get it to you on time.

RESIGNATIONS AND APPOINTMENTS

With regrets the SRA accepted the following resignations: David Moore and Noma Burch, Trustees; and Vera M. Boyington, Corresponding Secretary.

Jack Myers and Lena Robinson have been appointed to fill these positions. A vacancy now exists for Corresponding Secretary.

A Note of Thanks to Mrs. M. S. Shook for donation of books to our Library.

REALLY from p 7

made craft to duplicate.

"First off, it seemed to be explorin' a designated area, as it moved to and fro, jus' like we do when we're surveyin' a piece of land. In a flash it was over in another part of the sky repeatin' the performance.

"Their work was sure fast! You ask about smoke or vapor trails? I really cain't say, 'cause I don't remember any, but SPEED??? Like I said, one moment it was in this part of the sky, next in that, then t'other and t'other, then all at once it was gone.

"When we realized what we had witnessed, we both started jabberin' at once. We couldn't put our feelings into words, so we got back in the car and were silent a long, long time...."

FOR Better Health

Until 1832, food was just food. We ate everything, with no thought to the fact that we are what we eat. There had been study going on concerning this, of course, but the public was not aware of it. During an epidemic of cholera, this fact was made known to the public, and down through the years people have become more and more food-conscious.

But the word "carelessness" still must be removed--this writer now speaks for herself, as well as to the public. We know better, yet we'll sit down and eat things that we should not, then wonder why we're tired or just not up to par. Carelessness, yes; that's all it is. Could we remove that from our daily eating habits we'd be a much healthier public. No matter whose home you go into (I had proof of this through the holidays) out comes the cake and cookies, and on goes the coffee pot, or some punch from colored juices. Why couldn't this be bowls of fresh fruit and pure fruit juices? It costs no more.

I for one (and let's hope many of you will argue with me) am starting 1960 by removing the word "carelessness" from my eating habits. Let's remove that no-good acid, white flour, white sugar, starches, etc. from our diet. Why not live up to what we believe in. Above all, I'm speaking for myself, as we all must do. By so doing we have a right to pass the word along.

-Gertrude Cummings

THE POETS CORNER

"The Forces"

You are the quivering ripple...
that floats across the brook
A presence that is always there...
though unseen when I look

I never ever see you...
tho always do I hear
Your timely guiding voice...
deep within my ear

I can not help but listen...
you must implicitly be obeyed
Tho often things you promise...
will have to be delayed

Yet I follow, knowing not...
what else there is to do
So very strong is my belief...
my sincere faith in you

You never have misled me...
although you detoured when
You knew it for the best...
and you will again

Please stay beside me...
as in the past and now
Direct and protect me...
my friends, show me how...

by V. Curtis

For people who like to read and write poetry. If you have a poem that fits into our publication, we would like to have it appear here. Please send it to the Editors

BOOK REVIEW
by Orpha Romine

Never before has there been a book like the new book of Margaret Storm, "Return of the Dove." Written in glowing English, with powerful words and dashes of wit and charming good humor, you are lifted to the very stars.

Although deeply metaphysical, its main theme and plot are the long-sought solution to the 50-year-old riddle surrounding the life and works of Nikola Tesla, electrical wizard and inventor. Most people have never heard of him, yet we have him to thank for alternating current.

According to the Author, the space people have stated that Nikola was born on board their ship on a flight from Venus, and that they landed on earth at midnight, between July 1 and 10, 1856. This was not, she says, the kind of birth we know on earth. Nikola had an earth mother who cared for him with a rare tenderness, and it was said that she too was a Venusian.

Margaret Storm continues: "The New Age manifestations are ready, the space people are ready, the disciples are ready, but the masses are still busy with their endless rounds of eating, drinking, sleeping and procreation, interspersed by their efforts to make enough money to keep the other four projects going."

All through the book trudge the laggards that great majority of human beings of this planet who refuse to accept the Light of the new day and who ridicule and persecute all those who offer them a tiny spark of Light--hope. Their burdens of fear--death, eternal punishment, superstitution, and doctrines of vicarious atonement bear heavily upon their shoulders, but they cannot or dare not change. They have been taught by the church to believe in the creed of their church lest they make their God angry, a God which they themselves created, a God more cruel than even a human father could be.

If you are wondering how this book obtained its name, The Dove, the author states: "When Tesla volunteered to embody on earth, he did not come to the planet alone. He was accompanied by his Twin-Ray, an entity so highly evolved that she did not take a human body but manifested through a beautiful white dove."

This fascinating book is packed with material fact and occult mysticism and is one you will want to keep in your library. It is tragic that the ideas presented cannot be accepted by the world, because if they were, we would be well launched in the Golden Age when Universal Peace shall be established on Earth. The few who have caught the spiritual vision of the Glory to come will leave nothing undone to bring their living into harmony with the principles and laws of cosmic actuality.

WORDS OF WISDOM
from page 3

movement as a whole does little to impress outsiders with the idea that we subscribe to the idea of Brotherly Love.

Putting into practice the principles we proclaim to believe is a far better selling point than all the books that could be written, or all the lectures that could be given. Let us not, therefore, condemn every one that does not echo our exact feeling on every subject.

It is also my feeling that we owe a vote of thanks to previous officers and all others who have worked to make our club as interesting and informative as it has been in the past. It is very easy to sit as arm chair lieutenants and criticize, while making no effort to help. At least be tolerant of what others are attempting to do, even though it doesn't meet with your complete approval.

Let us do our utmost to present a picture of a group sincerely interested in being of service to our fellowmen from the standpoint of Brotherly Love, and not for personal grandeur. FREELY YOU HAVE BEEN GIVEN - FREELY GIVE.

The Spacecraft Research Association is now maintaining scrapbooks of saucer news and press clippings. If members or others want to contribute clippings from any news sources concerning sightings or association news, send them to: The Spacecrafter, 1516 E. Hood, Phoenix.
